EXPLORING RUM

UK.SYNERGYTASTE.COM

Drawing on our 140-year beverage expertise, we have developed new rum flavours for alcoholic and non-alcoholic beverages.

With rum seeing continued consumer interest and market growth globally, these rum flavours can be used to help you develop bar-quality rum cocktails.

As part of the collection, we have developed three cocktail flavours: Mojito, Strawberry Daiquiri, and a Pina Colada.

With the Classic Mojito being a favoured cocktail across Europe, there is the opportunity to twist the complete cocktail flavour with other Synergy flavours and extracts.....
